Notes:

Below are 12 different notes on discrepancies found with the monthly police reports. One major issue is the reports were not consistent from month to month. The format even changed from December 2018 to January 2019. Out of the 12 reports there were 5 major format changes. They are grouped by: January, February, March to July, August to September, and October to December. Even within those grouping there were minor issues. It was very difficult to compare reports from month to month.

Note 1: Each month there are multiple incidents missing from the categorized areas. Examples of an incident that doesn't fall into a defined category were not given.

Note 2: The order of information is different from the previous monthly summary report.

Note 3: Information not included on the monthly summary report that was included in the 2018 Police reports. Unknown why the categories were dropped.

Note 4: The title of the category has changed. Unknown if the parameters of what's being reported remained the same.

Note 5: The "K9 Assist Gunner" was added. In 2018 the K9 hours were differentiated. That is not the case in 2019. It is unclear what this category represents.

Note 6: The sum of categorized incidents is more than the total incidents reported. Either there were negative events or a mistake was made.

Note 7: Ligonier Township and Ligonier Borough Police Departments were combined on 1 January 2019. This changed was announced the previous fall. However, they were reported as separate organizations.

Note 8: The Ligonier Valley Police is reported from February on yet it existed on 1 January 2019. Ties with Note 7.

Note 9: This is a new category with no example of what an Attorney General assist is.

Note 10: Assumes Accidents and the Vehicle Accidents categories report the same data.

Note 11: There are multiple names for the same assist category.

Note 12: Zero mileage reported for police car with no explanation.
