### **Police Department Report for May 2021**

During the month of May 2021, the police department had a month of consistent progress. We are still working towards many goals for this department. We are engaging with the communities which we serve and we are obtaining feedback. This feedback will be used to determine areas of specific focus for this department.

We are continuing to aggressively monitor traffic as an effort to reduce vehicular speeds. While we have heard some positive feedback on this effort, we will continue to watch for traffic violations and work to curb aggressive driving behavior. We are coming closer to implementing changes and additions to our enforcement strategies.

We have received information regarding unlawful drug usage and trafficking. This information is being investigated. Investigations into drug trafficking are time-consuming. In most cases, we need to be meticulous in our level of detail to proceed with these investigations and to successfully prosecute offenders. Other agencies are at work within the boundaries of the communities of St. Clair Township, New Florence Borough, and Seward Borough. This is a coordinated effort to prosecute offenders.

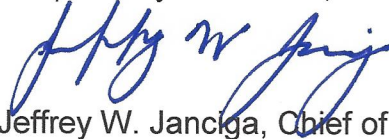

The naloxone program should be fully-functional this month. I have sent an email with requested information to the point of contact for the program. We should be receiving naloxone administration kits in the near future..

We have continued and expanded our efforts at community-oriented policing. Several new ideas will be launched within the coming month as an expansion to those efforts. Both Seward and New Florence have beautiful, small parks that could be used for frequent, regular contacts with the residents, especially with nicer weather approaching. This effort could be more consistent and simpler than some better known police efforts at community-oriented policing (such as "Coffee with a Cop").

I have obtained membership in the Pennsylvania Chief's of Police Association. This organization is the organization for networking with police chief's from across the state representing departments of assorted sizes. Such collaboration could result in solving many of the problems which police departments face in a more rapid, efficient fashion.

Lastly, I have continued work on a detailed policy manual to govern the operations of the police department. This is a labor-intensive process. Policy must be written, reviewed, and ultimately approved by the hierarchy of the Township. Most police departments do not possess the level of policy for which I strive. Most police departments have policies that are lacking and this causes some exposure to liability. I have undertaken this process to cause this police department to be more efficient, correct, and predictable to the community when involvement occurs. Having sound policy in place is the first step towards achieving accreditation. Accreditation is the "gold" standard amongst law enforcement agencies. Most agencies do not attempt this process due to the perceived obstacles. We will not be deterred. We will continue working on the process as it can only improve our performance.

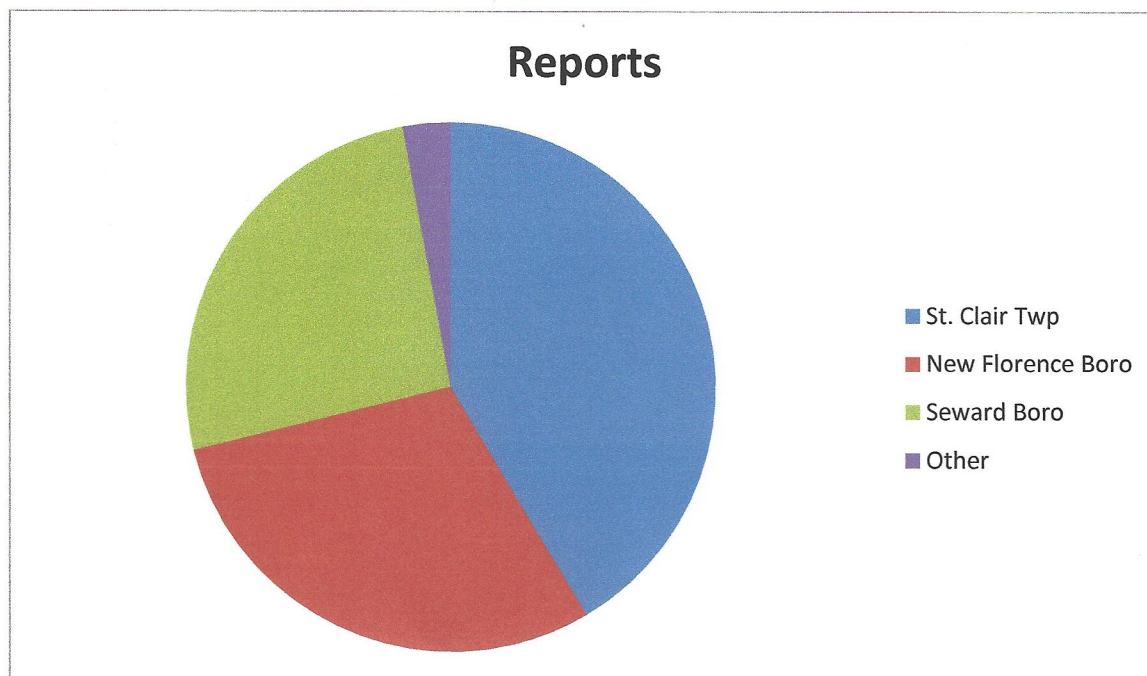

Respectfully Submitted,

A handwritten signature in blue ink, appearing to read "Jeffrey W. Janciga".

Jeffrey W. Janciga, Chief of Police
